

SOCIAL RESPONSIBILITY: Taking Excellent Care of People and Our Planet

"It's a huge relief that Peggy's not left alone anymore."

—Erik, Peggy's son

"I think the staff are wonderful."

—Peggy, Holton Home resident

PEGGY CAME TO HOLTON HOME after treatment for brain cancer affected her memory and balance. She beat the cancer but could no longer live independently.

Having lived a life of community service, Peggy notes that Holton Home shares her value of putting people first. "I think it's very good that Holton Home pays its staff a livable wage. And I like the flower gardens, and the vegetables we grow and use in our own kitchen."

Peggy's son Erik is also glad Holton Home is "green". "Everybody's started talking about global warming. But Holton Home's been on board for a while and is part of the solution."

Holton Home has a tradition of more than 100 years of service to our community. We provide a home for elders who need help with daily tasks, allowing them the freedom to enjoy life and maximize health.
